INSULATION INC.

A black and white photograph of an industrial facility, possibly a refinery or chemical plant. The scene is filled with a complex network of pipes, valves, and large cylindrical storage tanks. The pipes are some of which are wrapped in thick, white insulation. The tanks have a ribbed or corrugated surface. The background shows a clear sky and the structural elements of the facility, including steel beams and walkways. A red border frames the entire image, and a dashed green line is visible within the frame.
