General Layout

#### **GENERAL INFORMATION**

### **Using Your Setup Instructions**

Setup Instructions are created specifically for your configuration. They are laid out sequentially, and then a logical series of detailed steps to assemble the main structure and components. We encourage you to study the instructions before attempting to assemble your exhibit.

Each page reminds you to tighten the setscrews after disassembling your exhibit to prevent loss of the locks and setscrews (see below in RED). This is VERY IMPORTANT.

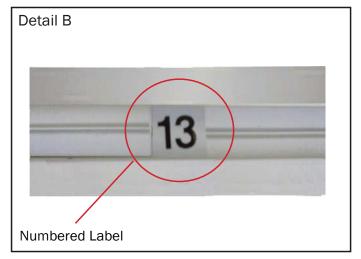

- Cleaning and Packing Your Display 1) Use care when cleaning aluminum extrusion or acrylic inserts. Use only non-abrasive cleaners.
- 2) When cleaning laminate inserts or countertops, use mild cleansers and a soft material such as cotton.
- 3) Keep all display components away from extreme heat and long exposure to sunlight to avoid warping and fading.
- 4) Retain all packing material. It will make re-packing much easier and will reduce the likelihood of shipping damage.

Most exhibits can be assembled with the supplied Hex Key Tool. Occasionally, flat head screwdriver may be required.

Most horizontal extrusion connections have a patented expandable lock. This lock inserts into the groove of an opposing extrusion. Tightening the lock with the Hex Key Tool expands the lock and creates a strong positive connection.

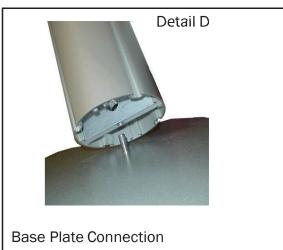

Each extrusion contains a numbered label which corresponds with setup instructions.

The label is located within a groove of the extrusion (when possible).

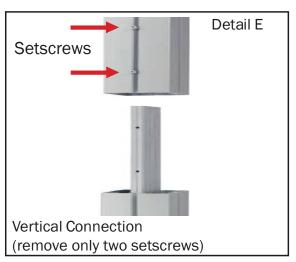

Remove only (1) setscrew when disassembling. Replace setscrew in extrusion after assembling it. Before packing, replace setscrew in extrusion to avoid losing it.

Attach base plate to round or square vertical extrusion using the bolt provided. Be careful not to strip the threads.

WHEN DISASSEMBLING ALUMINUM EXTRUSION, TIGHTEN ALL SETSCREWS AND LOCKS TO PREVENT LOSS DURING SHIPPING

When vertical extrusions are packed in portable cases rather than crates or tubs, they must broken down into smaller sections which then require assembly.

Remove only (2) setscrews when disassembling. Replace setscrews in extrusion after assembling it. Before packing, replace setscrews in extrusion to avoid losing them.

## **SEG Graphic: To Ensure Proper Fit**

Corner A	Corner B	
Corner D	Corner C	

It is important to first insert graphic

into each alternater corner then to

If this is not done, graphic will not fit

the sides of the frame.

into the frame correctly.

Step 1 Insert corner A.

Turn edge of graphic so silicon welt is perpendicular to face of graphic. Insert narrow side of welt with fabric to outside into the channel. Repeat for other side of this corner.

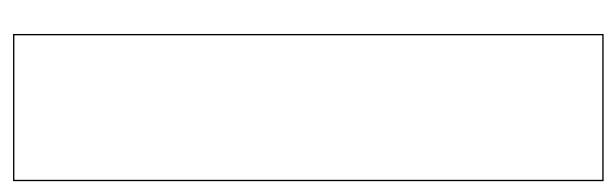

Step 2 Repeat Step 1 for opposite corner C, then insert corner B, followed by corner corner D, to complete the installation of the corners.

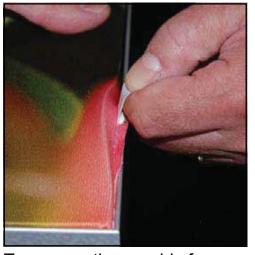

Step 3

Once all corners are inserted, press one silicon edge into channel from corners and work toward the center. Make sure welt is fully inserted into channel. Continue until all sides are done. Smooth out edges of graphic.

**Graphic Removal** 

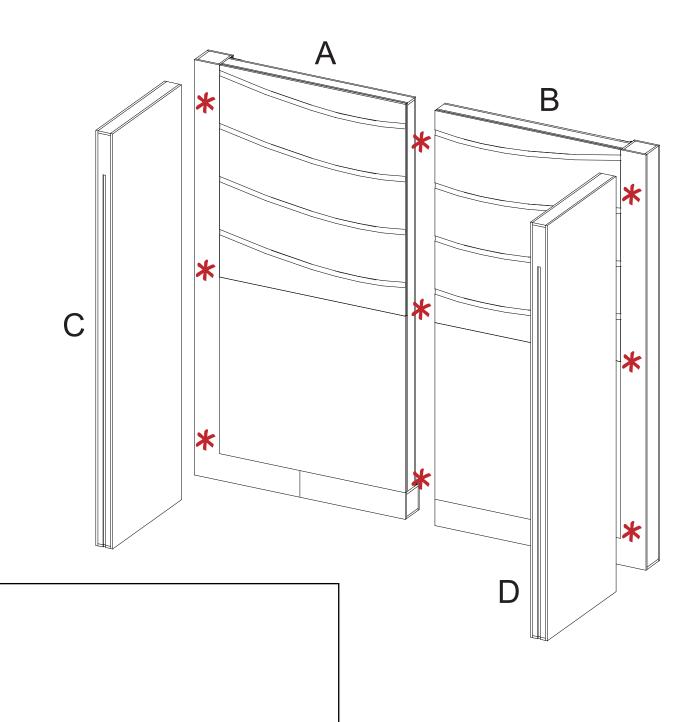

To remove the graphic from the frame, locate the fabric pull tab.

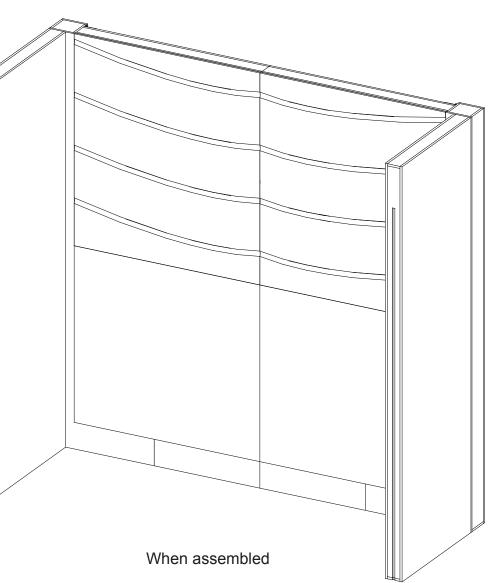

Gently pull up on the tab to remove the fabric.

#### FRONT TOWER DEMO ASSEMBLY

Steps:

1) Connect wood laminated panels together using custom cam locks as shown. Refer to *Custom Cam Lock Attachment* detail.

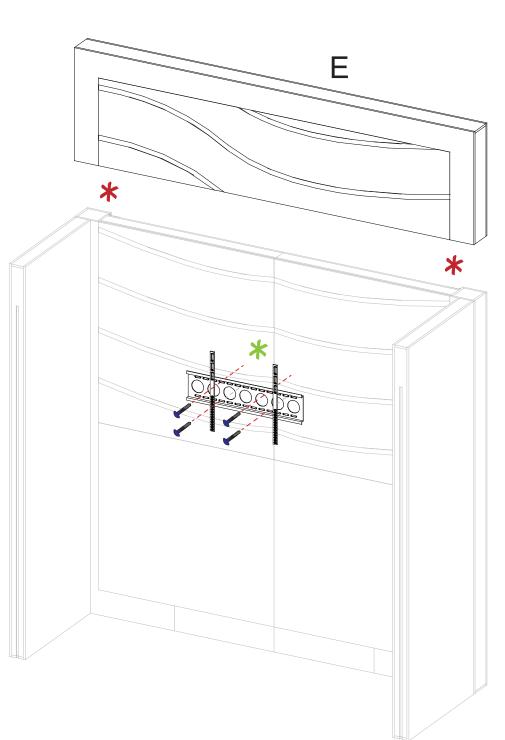

# \* Custom Cam Lock Attachment Step#2

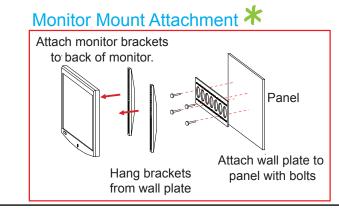

Place hex tool in hole on side of panel and rotate to activate lock and attach panels together.

#### FRONT TOWER DEMO ASSEMBLY (CONT'D)

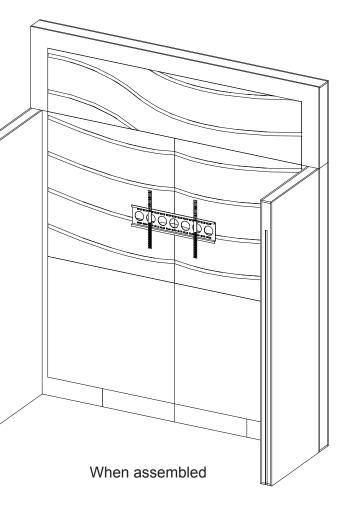

Steps:

- Connect wood laminated panel [E] atop lower panels using custom cam locks as shown.
   Refer to *Custom Cam Lock Attachment* detail.
- 2) Attach monitor mount to assembled front tower. Refer to Monitor Mount Attachment detail.

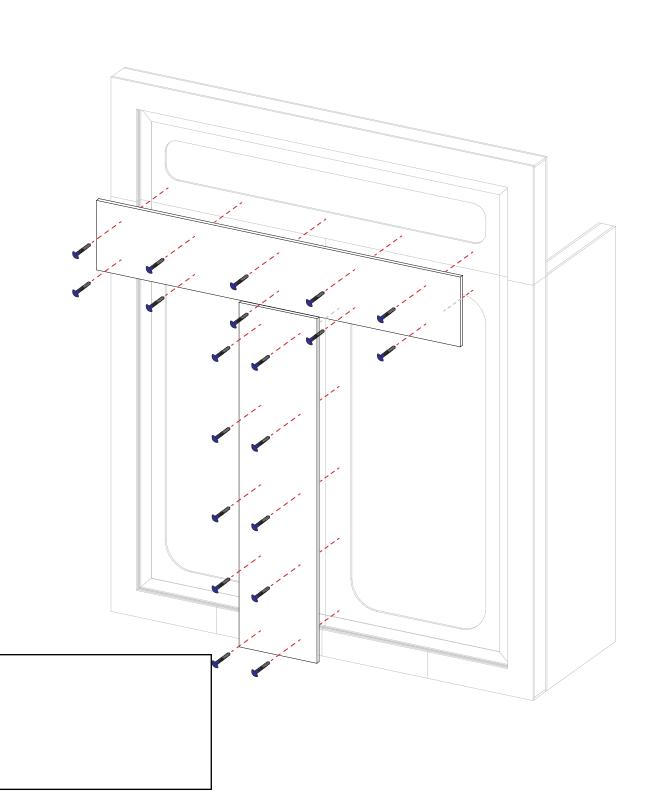

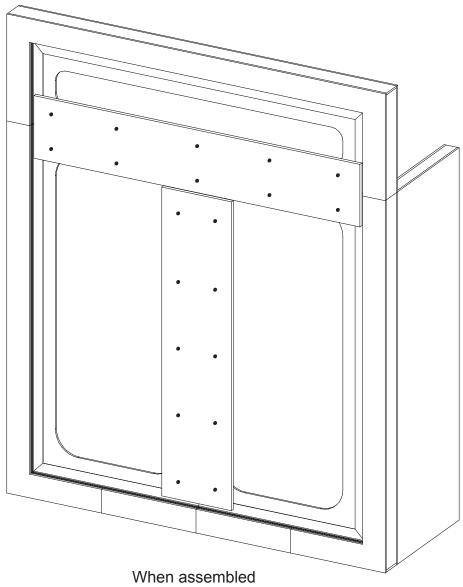

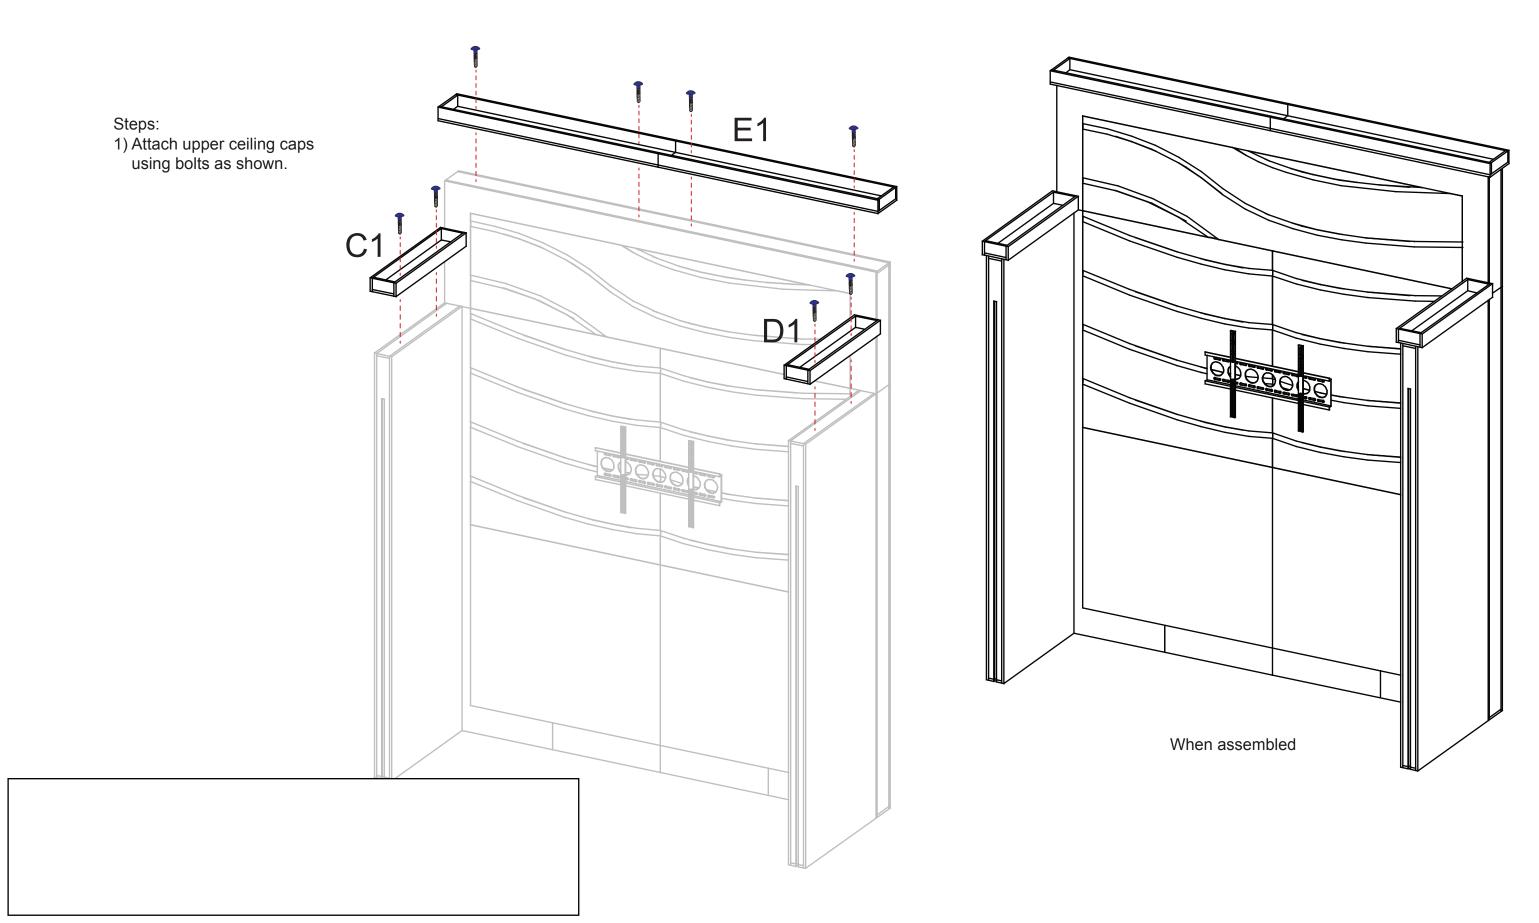

Place hex tool in hole on side of panel and rotate to activate lock and attach panels together.

Steps: 1) Attach additional support to back of assembled front tower using bolts as shown.

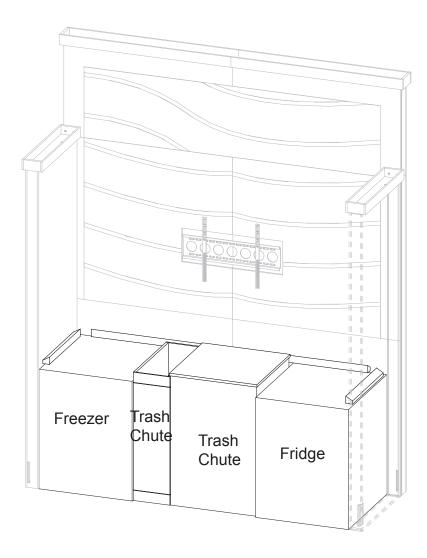

#### FRONT TOWER DEMO ASSEMBLY (CONT'D)

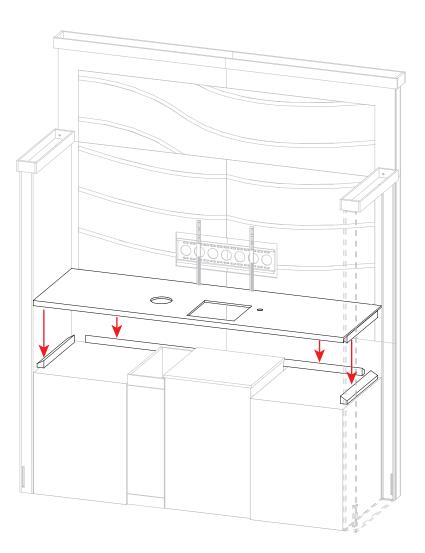

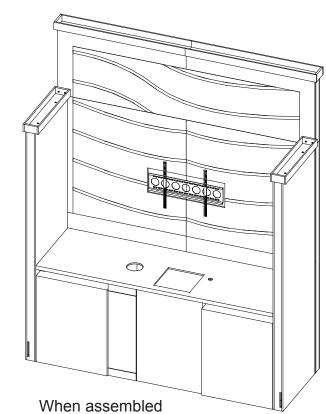

#### FRONT TOWER DEMO ASSEMBLY (CONT'D)

Steps: 1) Slide Each appliance against backwall. 2) Place counter on top of french cleats.

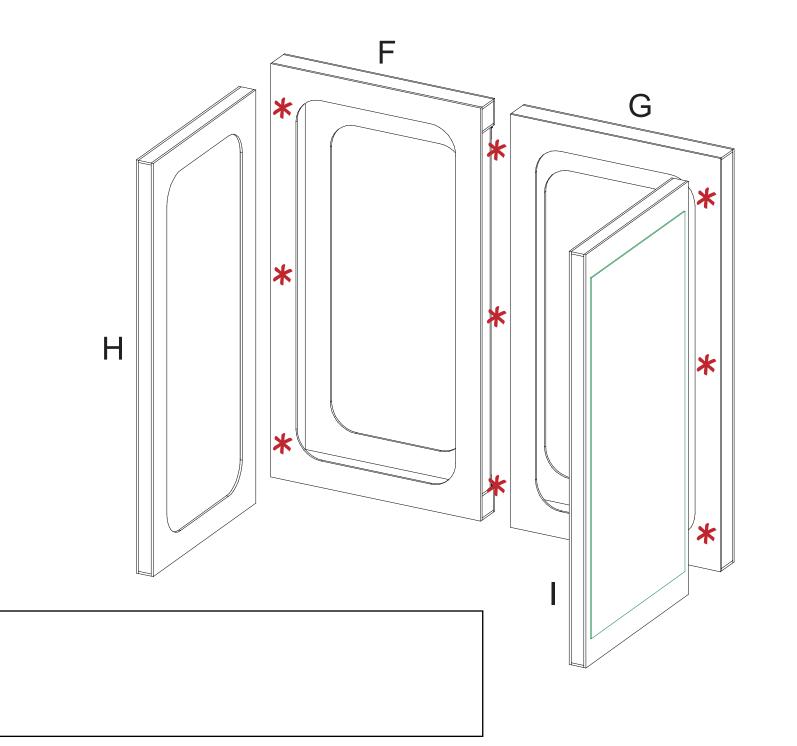

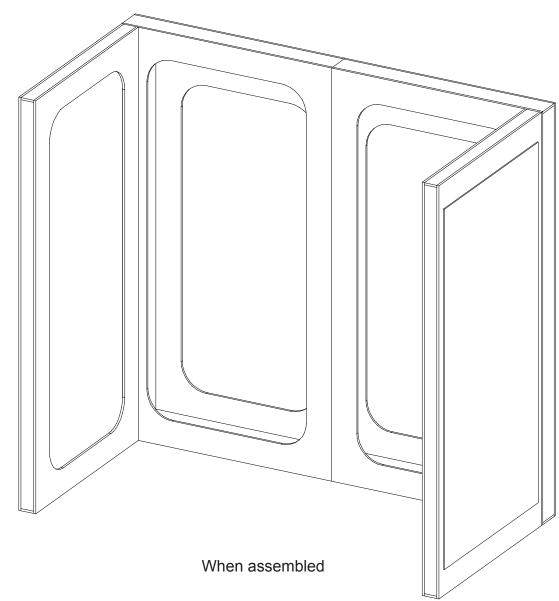

#### STORAGE PREP ROOM ASSEMBLY

Steps:

1) Connect wood laminated panels together using custom cam locks as shown. Refer to *Custom Cam Lock Attachment* detail.

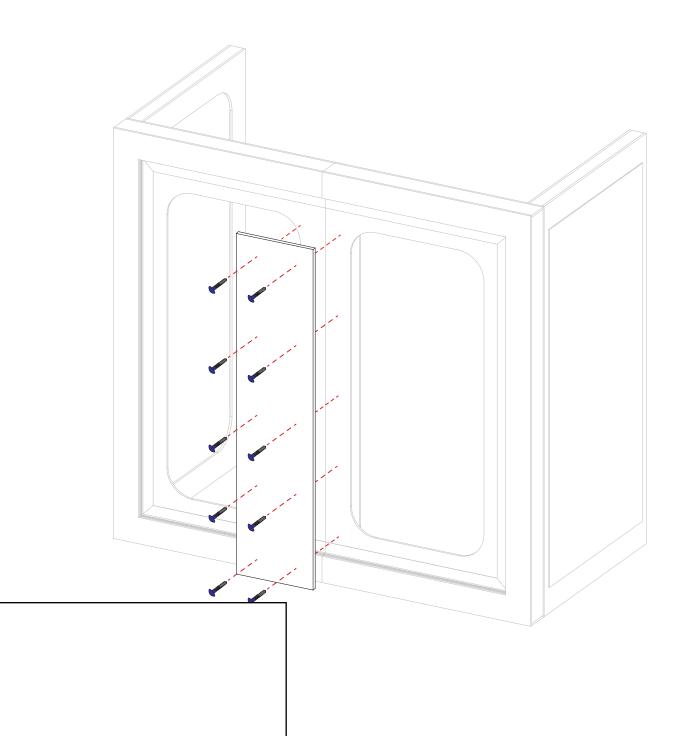

#### \* Custom Cam Lock Attachment

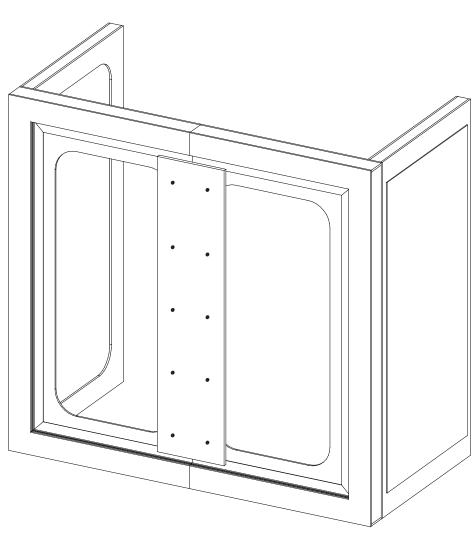

Place hex tool in hole on side of panel and rotate to activate lock and attach panels together.

#### STORAGE PREP ROOM ASSEMBLY (CONT'D)

Steps: 1) Attach additional support to back of assembled storage prep room using bolts as shown.

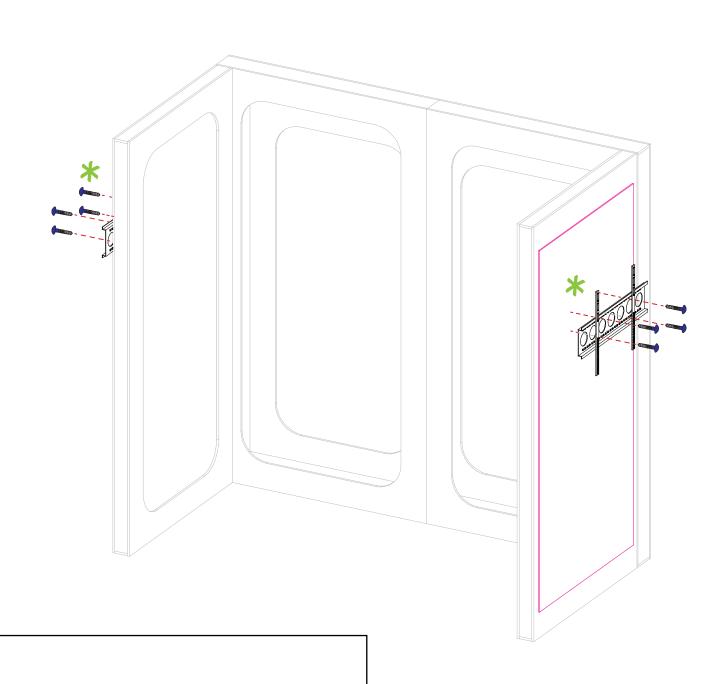

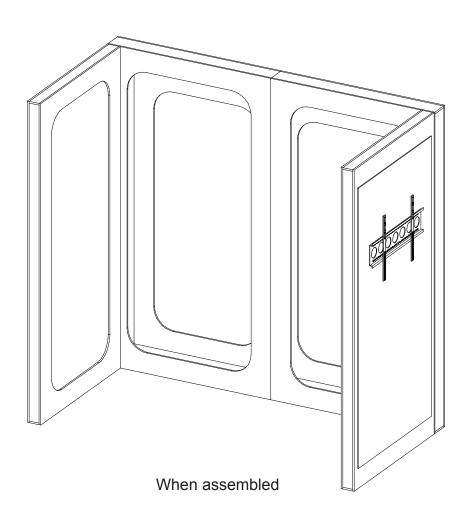

When assembled

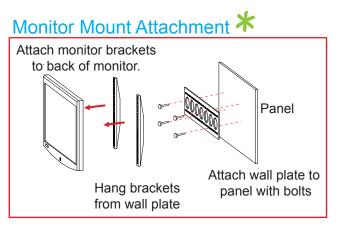

#### STORAGE PREP ROOM ASSEMBLY (CONT'D)

Steps:

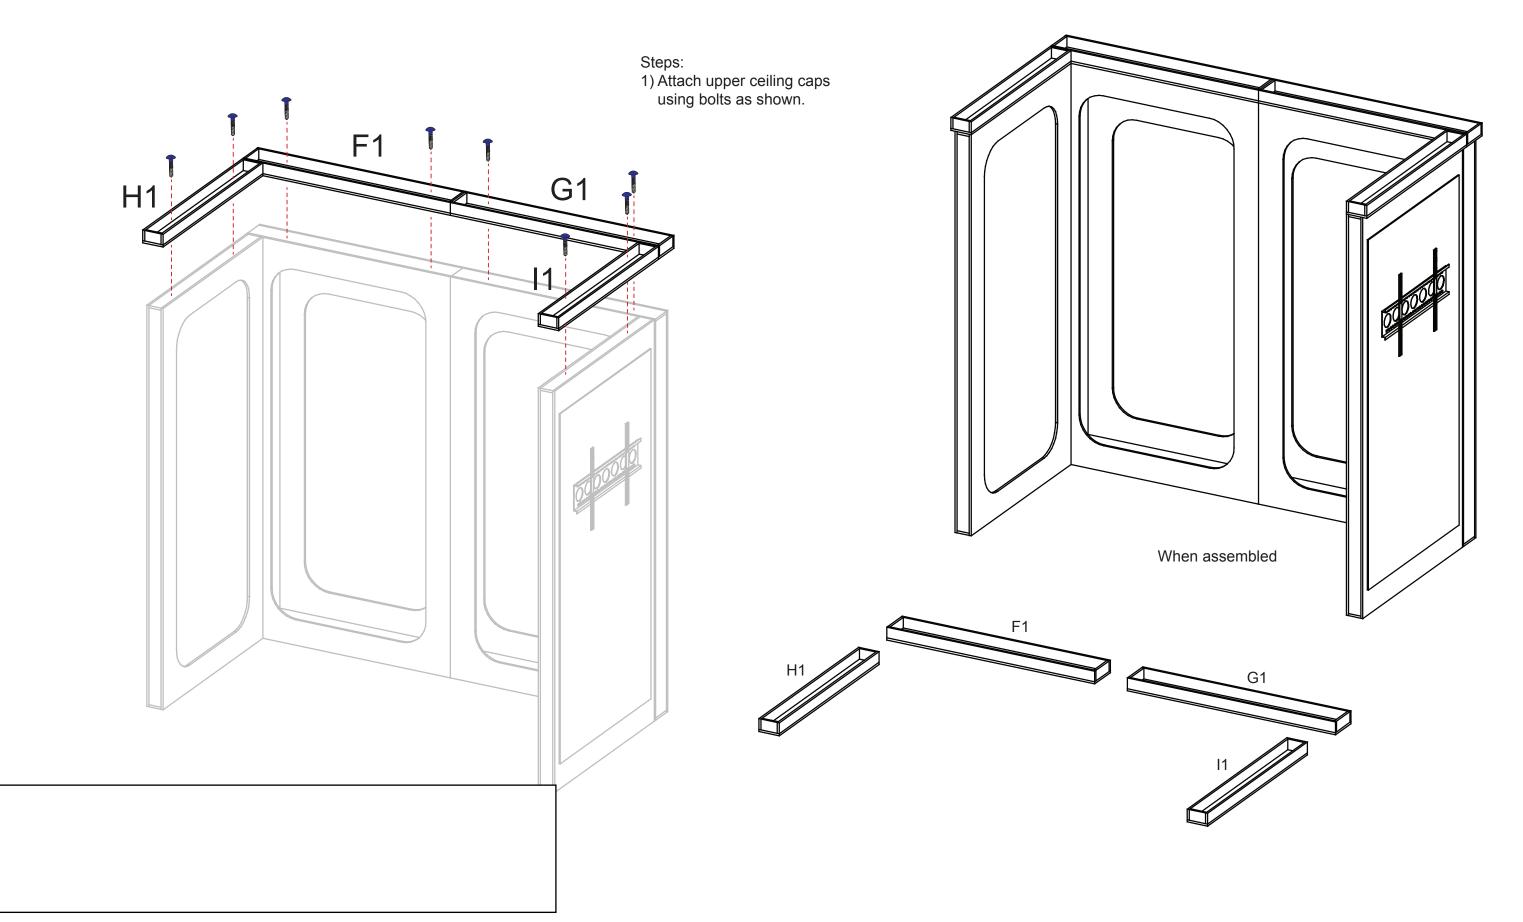

- 1) Velcro Graphic Panel then attach mount.
- 2) Attach monitor mounts to assembled storage prep room. Refer to Monitor Mount Attachment detail.

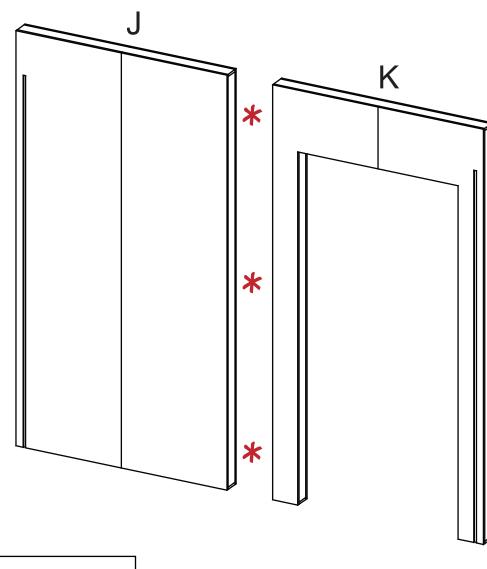

#### STORAGE PREP ROOM ASSEMBLY (CONT'D)

#### STORAGE PREP ROOM DOOR SIDE ASSEMBLY

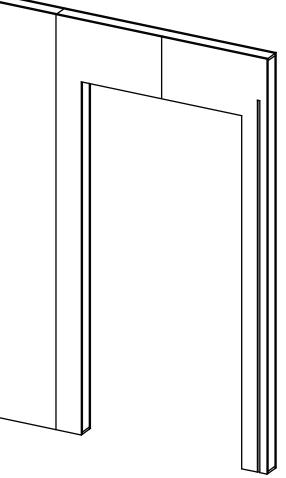

Steps:

1) Connect wood laminated panels together using custom cam locks as shown. Refer to Custom Cam Lock Attachment detail.

#### When assembled

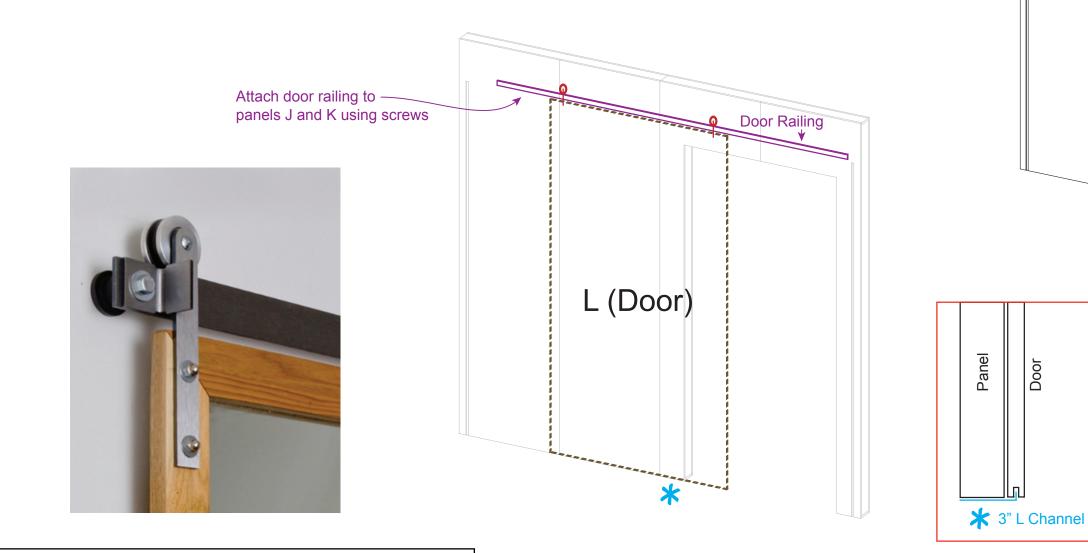

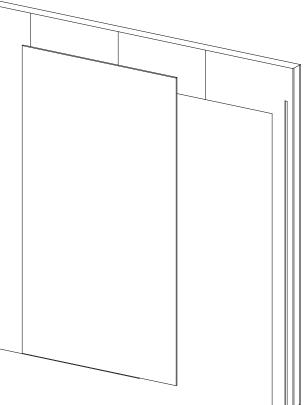

Place hex tool in hole on side of panel and rotate to activate lock and attach panels together.

#### STORAGE PREP ROOM DOOR SIDE ASSEMBLY (CONT'D)

Steps:

- Attach upper ceiling caps using bolts as shown.
  Attach door railing to assembled panels using screws.

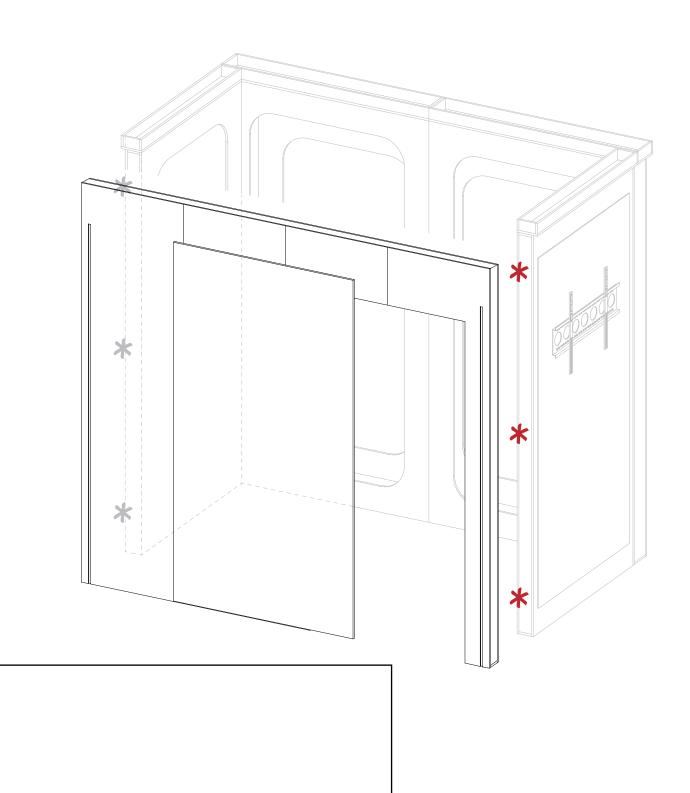

#### When assembled

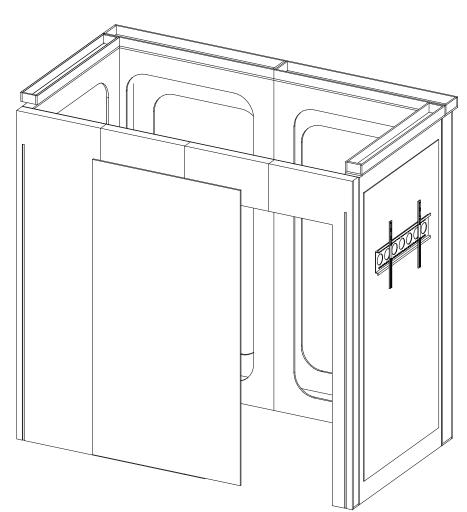

#### STORAGE PREP ROOM DOOR SIDE ASSEMBLY (CONT'D)

Steps:

1) Connect wood laminated panels together using custom cam locks as shown. Refer to *Custom Cam Lock Attachment* detail.

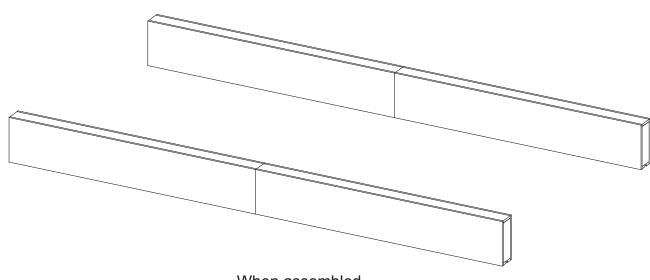

When assembled

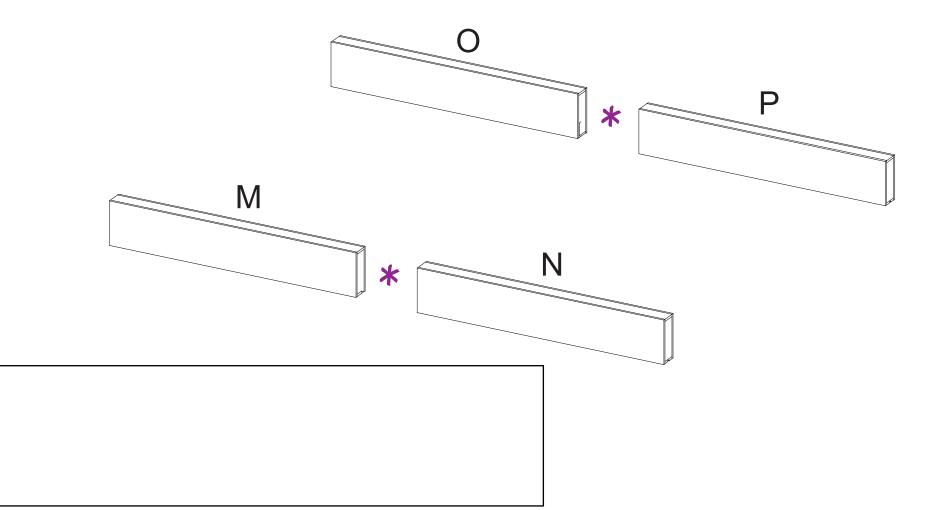

to activate lock and attach panels together.

#### CENTER SECTION ASSEMBLY

Steps:1) Connect wood laminated panels together using bolts, washers, and wing nuts as shown. Refer to detail.

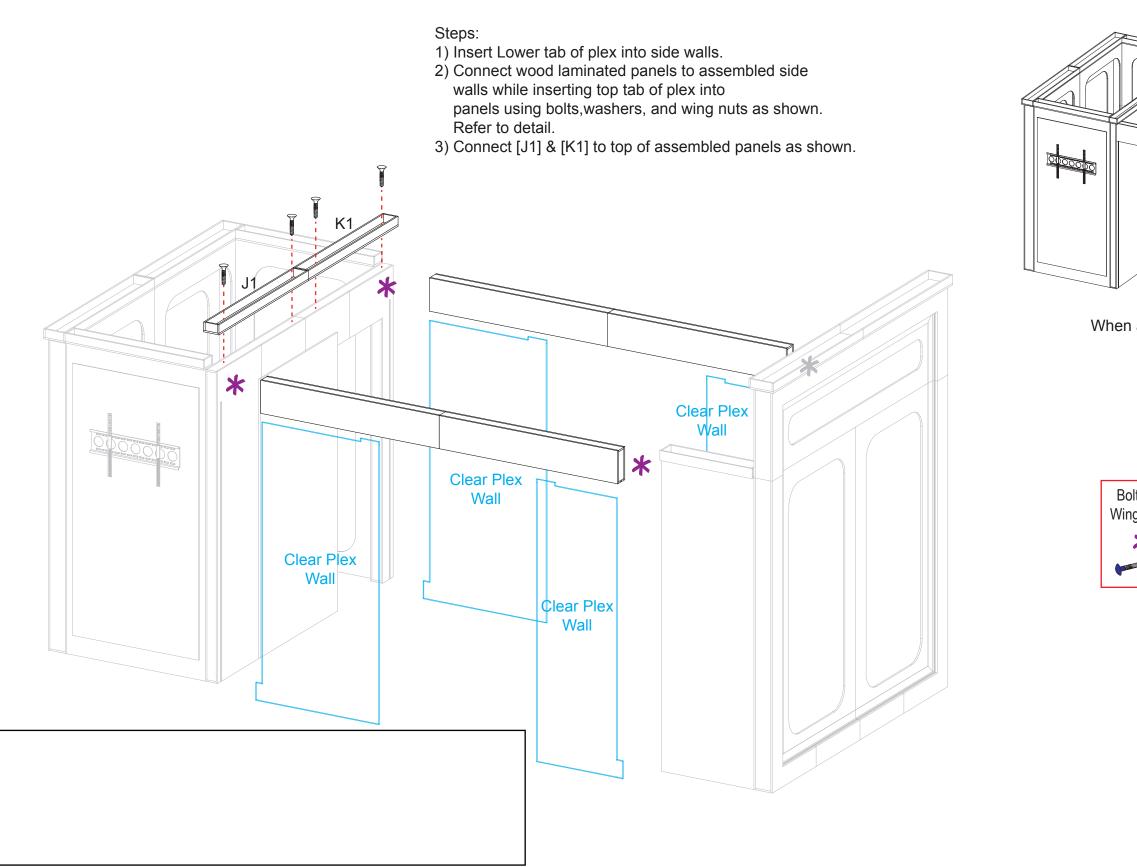

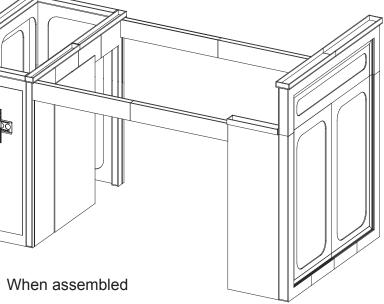

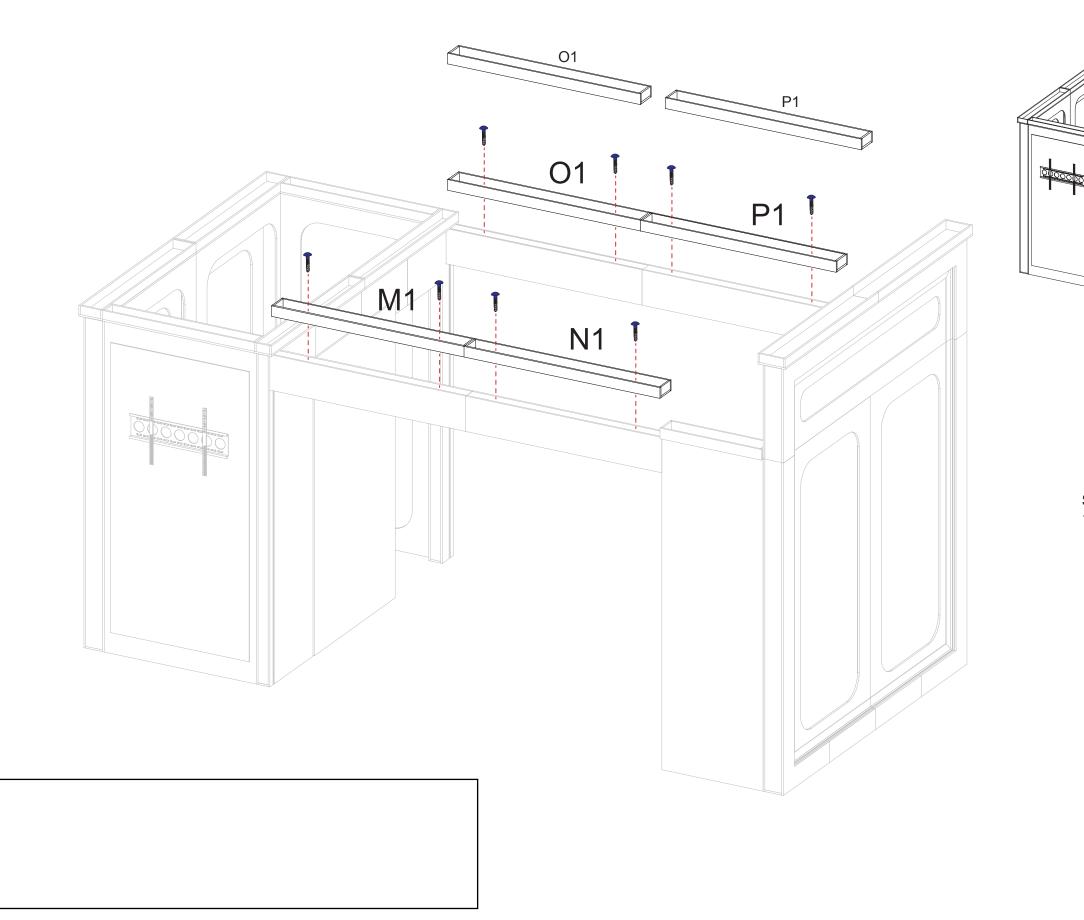

#### CENTER SECTION ASSEMBLY (CONT'D)

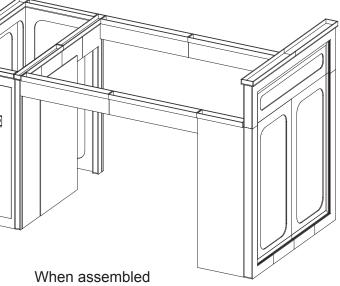

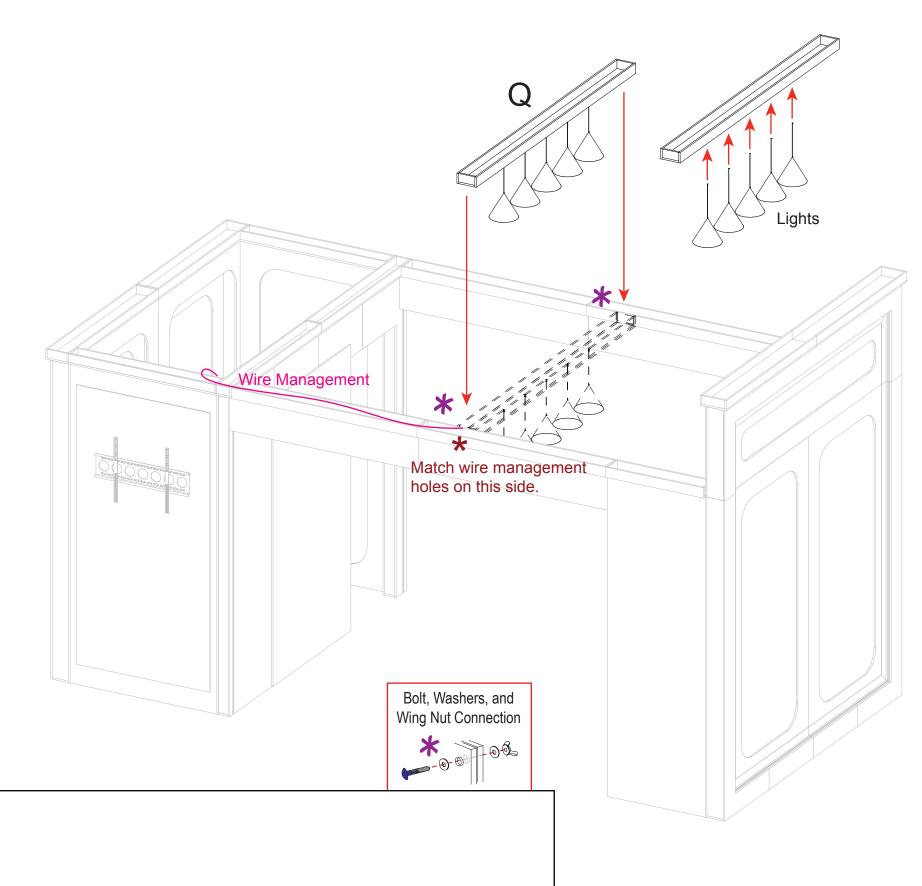

CENTER SECTION ASSEMBLY (CONT'D)

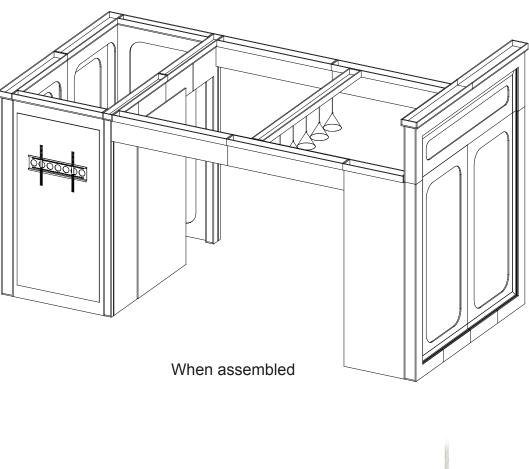

Steps: 1) Attach upper ceiling caps using bolts as shown.

#### CENTER SECTION ASSEMBLY (CONT'D)

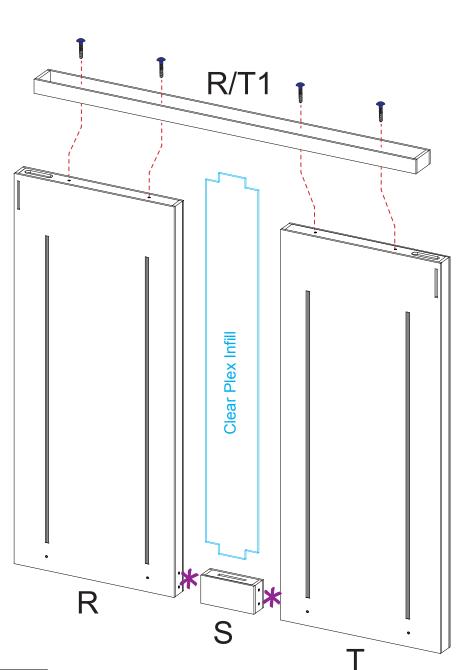

Steps:

 Attach center ceiling cap with lights to assembled structure using bolts, washers, and wing nuts as shown.

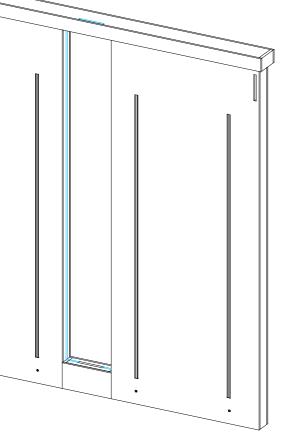

- Steps: 1) Connect wood laminated panels together using bolts, washers, and wing nuts as shown. Refer to detail.
- 2) Attach ceiling cap atop assembled panels using bolts. Note: Place clear plex infill between panels as shown.

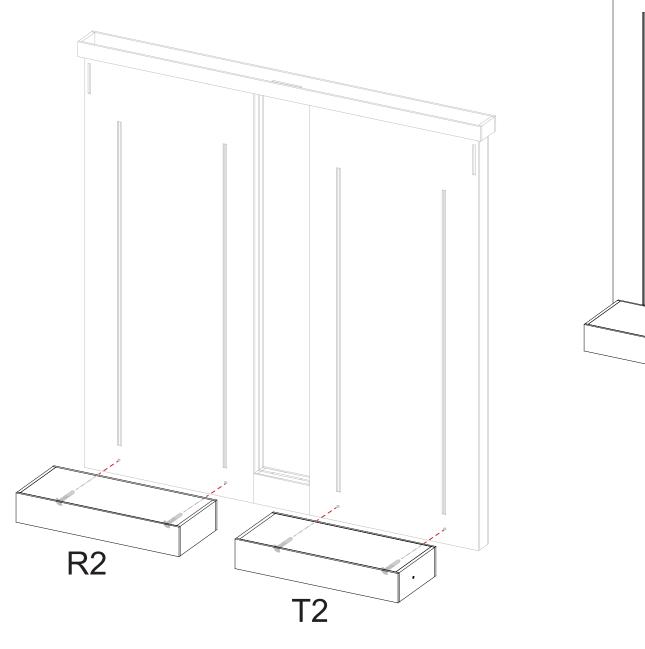

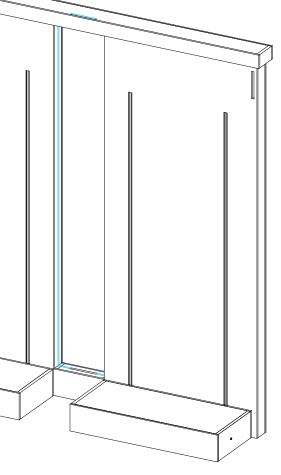

PRODUCT DISPLAY ASSEMBLY (CONT'D) - QTY, 2

Steps: 1) Attach wood laminated bases to assembled panel wall using bolts as shown.

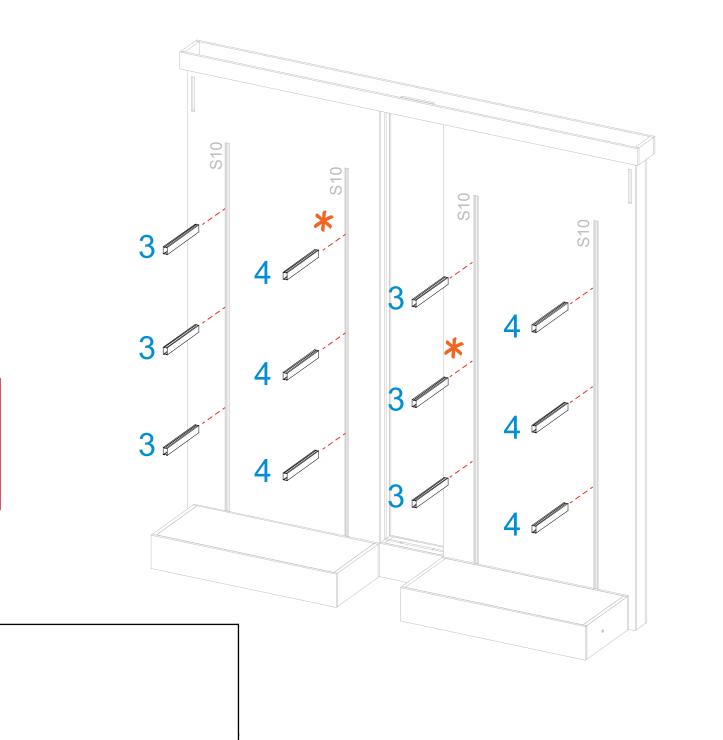

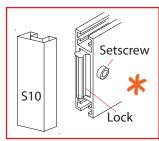

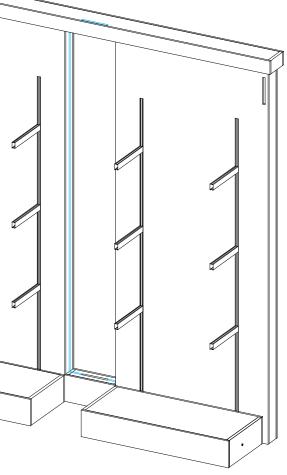

When assembled

Steps:

1) Attach shelf supports to vertical S10's using lock as shown. Refer to detail.

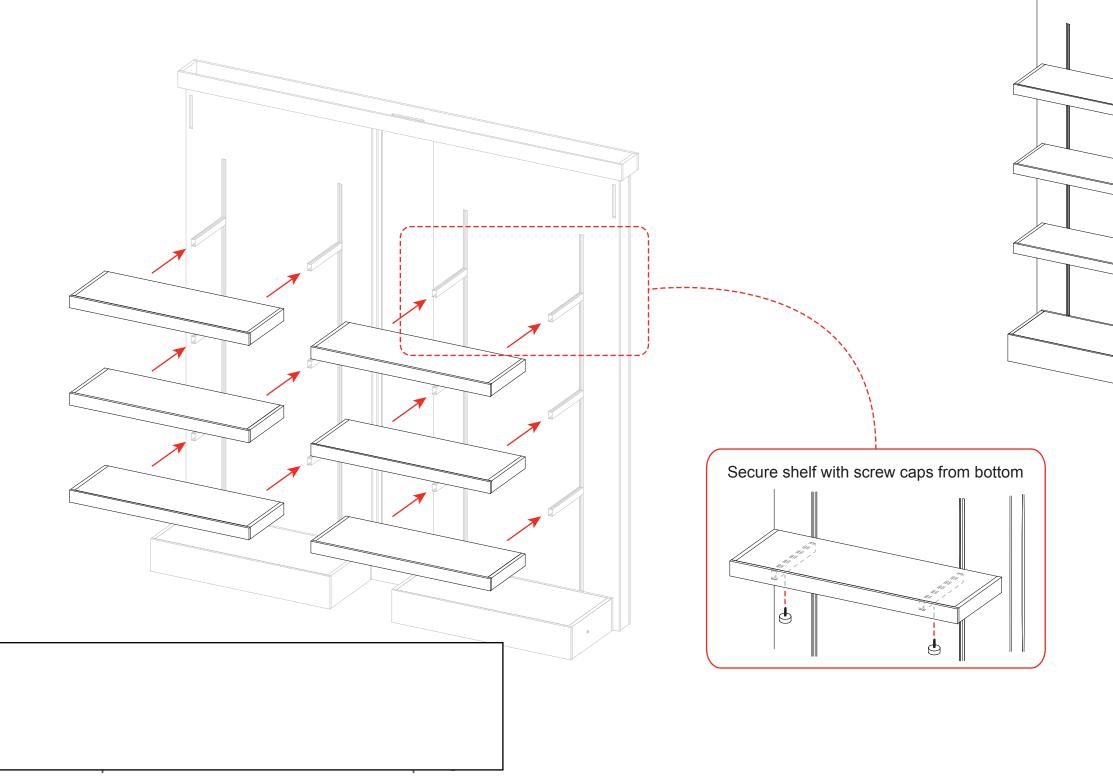

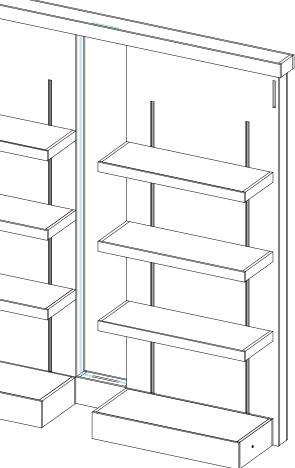

When assembled

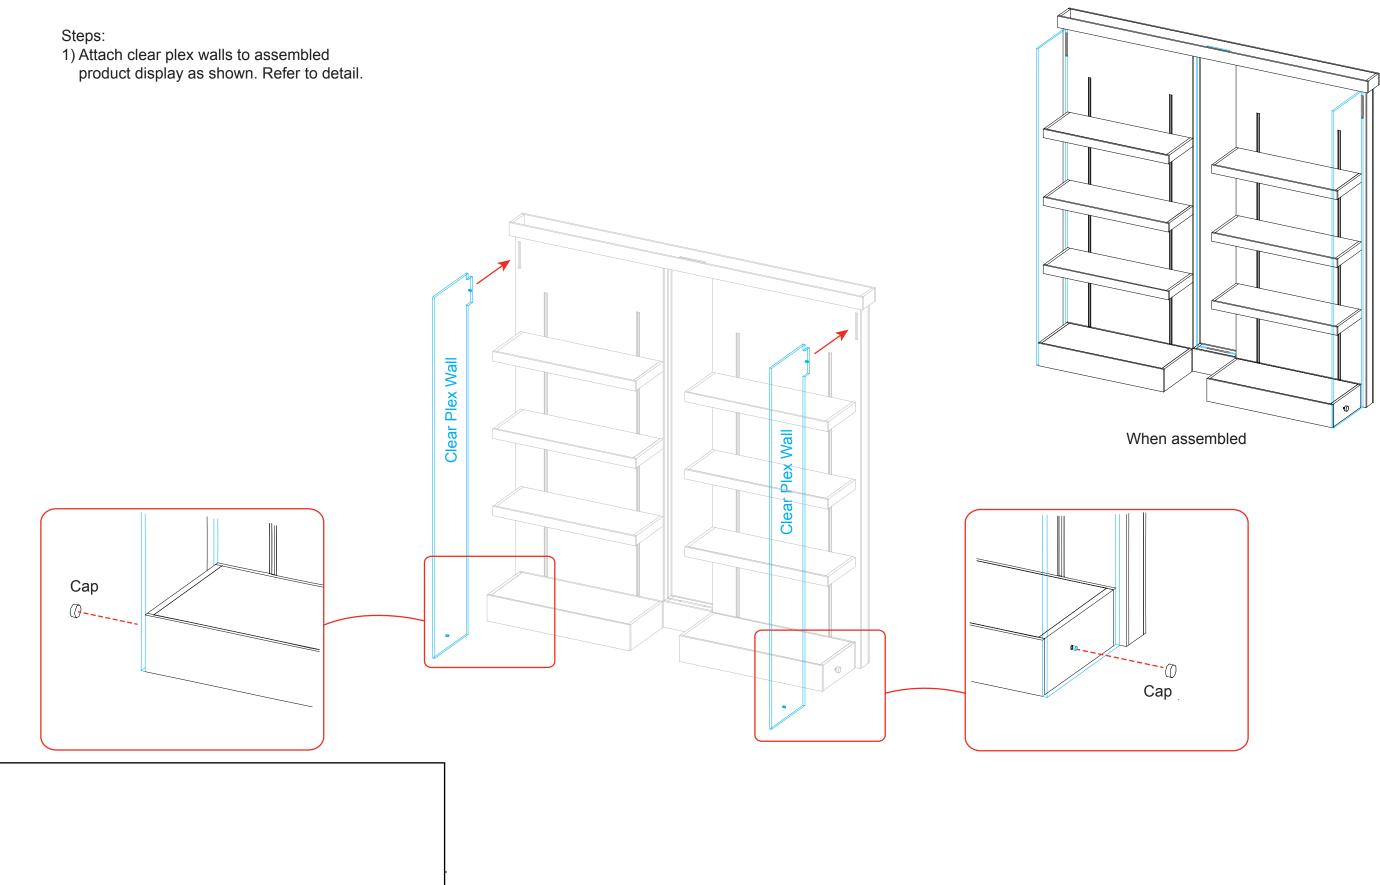

Steps: 1) Slide shelves to place with shelf supports hidden inside of shelf and secure with caps. Refer to detail.

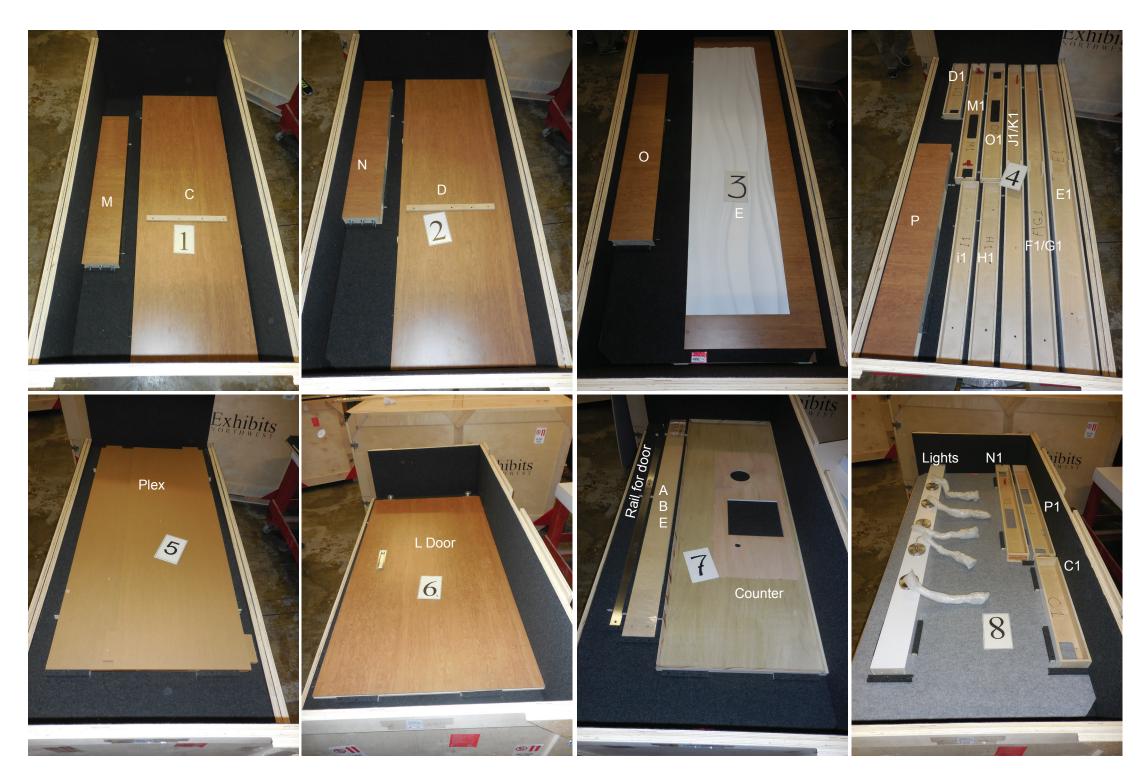

When assembled
