## Formulate Master Backwall Connector - 07

#### FMLT-WBWC-07

The Formulate® Master Backwall Connector is an ideal accessory to connect two 10' or 20' Formulate backwalls. It features a pillowcase fabric graphic and connects easily to create the appearance of one seamless display.

### features and benefits:

- Premium aluminum tube frames with snap button assembly
- Easy to store and ship
- Quick to set up

- One zipper pillowcase fabric graphic
- Kit includes: monitor kiosk featuring a medium monitor mount, can hold 32-55" monitor/ max weight 40 lbs
- Lifetime limited hardware warranty against manufacturer defects

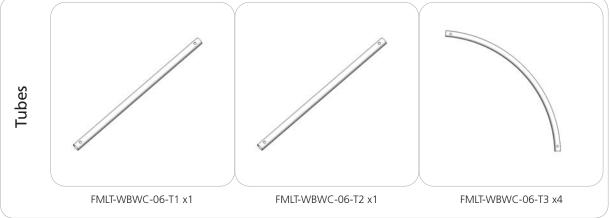

### dimensions:

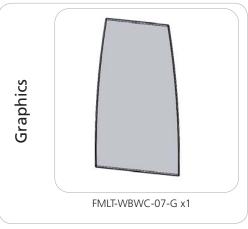

dimensions:	
Hardware	Graphic
Assembled unit: 48"w x 92.63"h x 33.52"d 1219mm(w) x 2353mm(h) x 851mm(d) Approximate weight with cases: 79 lbs / 35.8 kgs	Refer to related graphic template for more information.  Visit: www.exhibitors-handbook.com/ graphic-templates
Shipping	
Packing case(s): 1 OCE Case	
Shipping dimensions: Expandable case length (I) may vary 40"-66"I x 18"h x 18"d 1016mm-1677mm(I) x 458mm(h) x 458mm(d) Approximate total shipping weight	
(includes cases & graphics): 86 lbs / 39 kgs	additional information:
	Graphic material: dye-sublimation zipper pillowcase fabric

We are continually improving and modifying our product range and reserve the right to vary the specifications without prior notice. All dimensions and weights quoted are approximate and we accept no responsibility for variance. E&OE. See Graphic Templates for graphic bleed specifications.

## **Connection Methods**

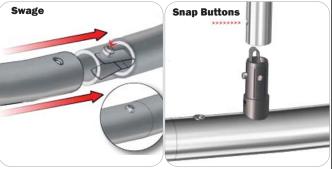

Formulate<sup>TM</sup> structures use a number of different yet simple connection methods. Your kit will include one or more of the connection methods shown below. Steps within the Kit Assembly will reference a specific method for each connection point.

## Connection Method 1: ES30 / ES50 / ES75

Compress the unlocked connector and slide one tube onto each end. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not overtighten.

## **Connection Method 2: Snap Buttons & Swage**

Locate the snap button on the connector or swage tube. Locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the lock hole. To disassemble, press the snap button and pull apart.

### Connection Method 3: ES30-90B / ES30-I / ES30-C

Compress one unlocked end of the connector and slide it through one tube end. Compress the other end of the connector and slide the second tube on. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not overtighten.

## Connection Method 4: Tube Clamps

Be sure to fully assemble all frames before using clamps. With the clamp unlocked, place one tube of the first frame into the mouth of the clamp. Place the second tube (if applicable) into the second mouth of the clamp. With both frame's tubes in the clamp, be sure to lock securely, but do not overtighten.

### Connection Method 5: Cam Lock / Slide Lock

A cam lock equipped extrusion can lock to any cam lock channel. With the cam lock unlocked, set the teeth of the cam lock into the desired position on the cam lock channel. Using your allen key tool, carefully turn the lock clockwise to lock in place. Be sure to lock securely, but do not overtighten.

# **Kit Assembly**

## Step by Step

## Step 1.

Assemble your frame.

Please reference Connection Method 2 for more details.

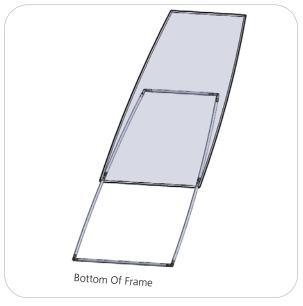

## Step 2.

For ease of installation, pull the fabric cover over the top of the frame while the frame rests flat on the floor. Zip to enclose.

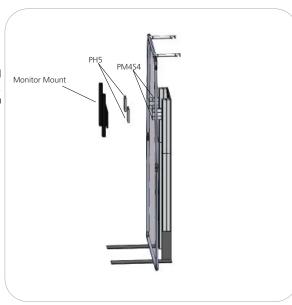

### Step 3.

Take this time to assemble your PM4S3-MK through Step 3 of its instruction manual. Push the stand through the ladder graphic so that the PH5 extrusions extend through the graphic holes.

Please reference Connection Method 5 for more details.

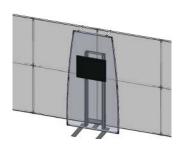

### Step 4.

Locate two TCH-30-B2B-200's for connecting the frame to a backwall unit. Using the provided allen key set, attach the clamps to the tops of the frames as shown in the figure to the right.

Please reference Connection Method 4 for more details.

## **PM4S3 Monitor Kiosk**

PM4S3-MK-M PM4S3-MK-L

Kiosk displays are portable and easy to assemble. The aluminum extrusion frame features cam locks, tension glide connections and medium or large monitor mounts. This kiosk comes in a expandable shipping case.

We are continually improving and modifying our product range and reserve the right to vary the specifications without prior notice. All dimensions and weights quoted are approximate and we accept no responsibility for variance. E&OE.

### features and benefits:

- Premium aluminum extrusion frames with cam lock and tension glide assembly
- Easy to store and ship
- Quick to set up
- Weighted feet for added stability

- Kiosk Kit includes a medium or large monitor mount
- Lifetime limited hardware warranty against manufacturer defects

### dimensions:

Hardware	Shipping
Assembled unit: Medium or Large  25.59"w x 70.87"h x 25.59"d 650mm(w) x 1800mm(h) x 650mm(d)  Approximate weight: (excludes cases & monitor mount) Medium or Large  40 lbs / 19 kgs	Packing case(s): Medium or Large 1 OCE Case  Shipping dimensions: OCE: Expandable case length (I) may vary 40" - 66"I x 18"h x 18"d 1016mm-1677mm(I) x 458mm(h) x 458mm(d)  Approximate total shipping weight: (includes cases & monitor mount) Medium 83 lbs / 38 kgs Large 85 lbs / 39 kgs
additional information:	
-Medium monitor mount can hold 32-55" monitor/ max weight 40lbs	
-Large monitor mount can hold 40"-65" monitor/ max weight 40lbs	
-Monitor not included	
-If shipping with backwall kit cases may vary

Please note:

This is the the kiosk frame build for either medium or large kit.

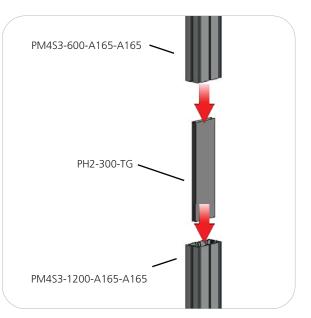

# **Kit Assembly**

### Step by Step

### Step 1.

Reference the image to the right. Locate the coded extrusions. Slide the PH2-300-TG connector into one end of the PM4S3-1200-A165-A165 so that it goes as deep as the internal pins. Connect the PM4S3-600-A165-A165 by sliding it over the PH2-300-TG. Repeat for this step for the second vertical.

### Step 2.

Collect your extrusions and handtool. Using the provided handtool, lock the extrusions into the back channel of the three channel PM4S3 faces as shown in the image below.

Be sure the locks face toward the back of the assembly and do not over tighten.

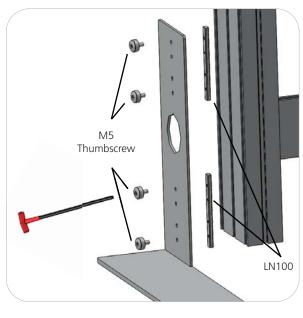

### Step 3.

Locate the M5 thumbscrews, LN100s, and the PM4S3-MM stabilizing bases. Slide the LN100s into the middle channel of the PM4S3. Hand screw the M5 thumbscrews through the base holes and into the LN100 holes. Use the handtool to securely fasten the M5 Thumbscrews. Do not over tighten.

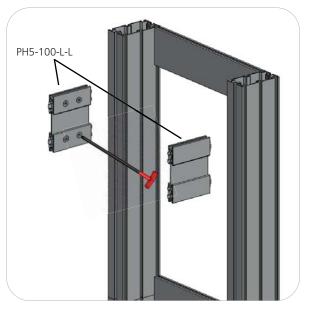

## Step 4.

Measure from the ground to the center of the hole in your main kit's graphic. Lock the center of your PH5-100-L-L into the PM4S3 stacks at the dimension height of the graphic hole. Do not over tighten.

# **Kit Assembly**

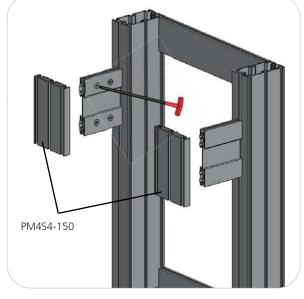

## Step by Step

## Step 5.

NOTE: Your main backwall assembly must be completed with graphics before completing this step of the monitor kit.

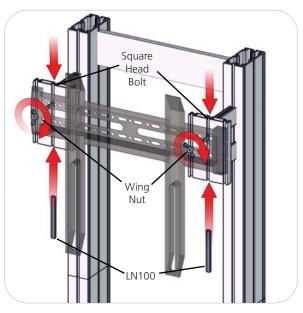

Lock your PM4S4-150 to the ends of the PH5-100-L-L. Do not over tighten.

## Step 6.

Set your monitor stand so that the extrusion arms fit through the graphic hole. Use the provided fastening hardware to complete your monitor stand. Slide the LN100 into the bottom center channel of the PM4S4-150. Next, slide the Square Head Bolt into the top center channel of the PM4S4-150. Apply the monitor bracket and spacer washer before fastening with the wingnut. Monitor mount may vary depending on size. Monitor not included.

## Step 7.

Setup is complete.

## **Monitor Bracket Instructions**

## **Extrusion Channel Applications**

## **EXT-SM-MB**

Sizes: 17" - 37" Max weight varies per application

### **Assembled unit:**

9"w x 16"h x 1.4"d 230mm (w) x 410mm (h) x 35mm (d)

### **Shipping dimensions:**

14"l x 6"h x 4"d 356mm (l) x 152mm (h) x 102mm (d)

### Approximate total shipping weight:

6 lbs / 2.7 kgs

#### VESA:

75 x 75 - 200 x 200mm

## **EXT-M-MB**

Sizes: 32" - 55" Max weight varies per application

### **Assembled unit:**

16"w x 16"h x 1.4"d 410mm (w) x 410mm (h) x 35mm (d)

### Shipping dimensions:

24"l x 4"h x 4"d 610mm (l) x 102mm (h) x 102mm (d)

### Approximate total shipping weight:

7 lbs / 3.2 kgs

#### VESA:

100 x 100 - 400 x 400mm

## **EXT-LG-MB**

Sizes: 40" - 65" Max weight varies per application

#### Assembled unit:

24"w x 16"h x 1.4"d 610mm (w) x 410mm (h) x 35mm (d)

### Shipping dimensions:

28"l x 6"h x 6"d 711mm (l) x 152mm (h) x 152mm (d)

### Approximate total shipping weight:

8 lbs. / 3.6 kgs

#### VESA:

100 x 100 - 600 x 400mm

### Included hardware:

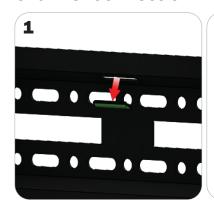

Wingnut

## **EXTRUSION CONNECTION**

### **Channel Connection A**

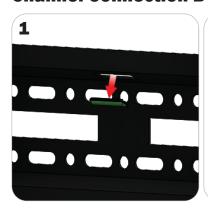

Locate all components needed to assemble the monitor mount with the channel connection A method. You will need (1) monitor bracket, (2) square head bolts, (2) washers, and (2) wingnuts.

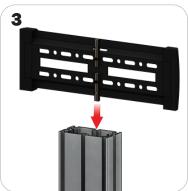

**Step 1:** Apply pressure to the rear side of the leveling gauge clipped into the monitor mount to remove it. **Step 2:** Insert the provided bolts through the washers and center top and bottom holes of the monitor mount. Loosly thread your wingnuts onto the end of the bolts. **Step 3:** Slide the bolt heads down the extrusion channel.

**Step 4:** Tighten your wingnuts to lock the monitor bracket in place. **Step 5:** Reference the included manufacturer monitor mount instructions for fastening your monitor to the bracket.

## **Channel Connection B**

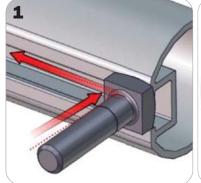

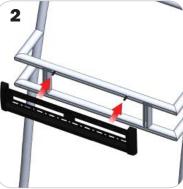

Locate all components needed to assemble the monitor mount with the channel connection B method. You will need (1) monitor bracket, (2) LN-LCD-SCW, (2) LN-100, and (2) washers.

**Step 1:** Apply pressure to the rear side of the leveling gauge clipped into the monitor mount to remove it. **Step 2:** Loosly thread the LN-LCD-SCW screws through the washers, the center top and bottom holes of the monitor bracket, and through the LN-50 holes. **Step 3:** Slide the LN-100s down the extrusion channel. **Step 4:** Tighten your LN-LCD-SCW to lock the monitor bracket in place.

**Step 5:** Reference the included manufacturer monitor mount instructions for fastening your monitor to the bracket.

## **TRI-30MM Channel Tube Connection**

Locate all components needed to assemble the monitor mount with the TRI-30MM Channel Tube Connection method. You will need (1) monitor bracket, (2) Square Bolts, and (2) Wingnuts.

**Step 1:** Slip the head of the square bolts into the extrusion channel of the tube. **Step 2:** Apply your monitor bracket to the protruding square bolts. **Step 3:** Lock your monitor bracket to the square bolts using the provided wingnuts. **Step 4:** Reference the included manufacturer monitor mount instructions for fastening your monitor to the bracket
