

Formulate Charging Tower

FMLT-CHRG-01

The Formulate Charging Tower adds technology and great value for visitors in need of a quick charge. Excellent for retail applications, trade shows and events.

features and benefits:

- Features 16 high-speed charging tips: (8) Micro USB for Android devices and (8) Apple 8-pin for Apple iPhone/iPad/Lightning devices
- Features a circular fabric header for branding and an illuminated fabric center structure
- Base and tabletop color offered in choice of four thermoform color options
- Lifetime limited hardware warranty against manufacturer defects

dimensions:

Hardware

Assembled unit:
33.56" w x 86.81" h x 33.46" d
852mm(w) x 2205mm(h) x 850mm(d)

Approximate weight with cases:
161 lbs / 73 kgs

Shipping

Packing case(s):
1 OCE Case
1 OCFM Case

Shipping dimensions:

OCE: Expandable case length (l) may vary
40" - 66" l x 18" w x 18" h
1016mm-1677mm(l) x 458mm(w) x 458mm(h)

OCFM: 138" w x 17" h x 15" d
3505mm(w) x 429mm(h) x 381mm(d)

Approximate total shipping weight
(includes cases & graphics):
165 lbs / 74.8 kgs

Graphic

Refer to related graphic template for more information.

additional information:

Graphic material:
dye-sublimation zipper pillowcase fabric

Included In Your Kit

Tools, Components, & Connectors

FMLT-CHRG-01-BASE x1

FMLT-CHRG-01-TOP x1

FMLT-CHRG-01-SOFFIT x1

WIRE CAP x1

SET SCRW 5/16x18x2 x8

5/16x18x2 x1

WASHER x4

5/16-18 FLANGE WINGNUT x12

CHRG-QUAD-TRUSS x2

LED-DB-PWRSUPPLY x1

LED-WHT-DB-300 x8

LED-DB-PWRCRD x1

LED-DB-CL-300 x3

LED-DB-CL-DCJ-600 x1

Included In Your Kit

Tubes

CHRG-01-FS-T1 x3

CHRG-01-FS-T2 x2

Graphics

CHRG-01-FS-G x1

CHRG-01-G x2

Additional Components

USB CABLE x4

USB HUB x4

OVERVIEW

Connection Methods

Formulate structures use a number of different yet simple connection methods. Your kit will include one or more of the connection methods shown below. Steps within the Kit Assembly will reference a specific method for each connection point.

Connection Method 1: ES30 / ES50 / ES75

Compress the unlocked connector and slide one tube onto each end. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not overtighten.

Connection Method 2: Snap Buttons & Swage

Locate the snap button on the connector or swage tube. Locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the lock hole. To disassemble, press the snap button and pull apart.

Connection Method 3: ES30-90B / ES30-I / ES30-C

Compress one unlocked end of the connector and slide it through one tube end. Compress the other end of the connector and slide the second tube on. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not overtighten.

Connection Method 4: Tube Clamps

Be sure to fully assemble all frames before using clamps. With the clamp unlocked, place one tube of the first frame into the mouth of the clamp. Place the second tube (if applicable) into the second mouth of the clamp. With both frame's tubes in the clamp, be sure to lock securely, but do not overtighten.

Kit Assembly

Step by Step

Step 1.

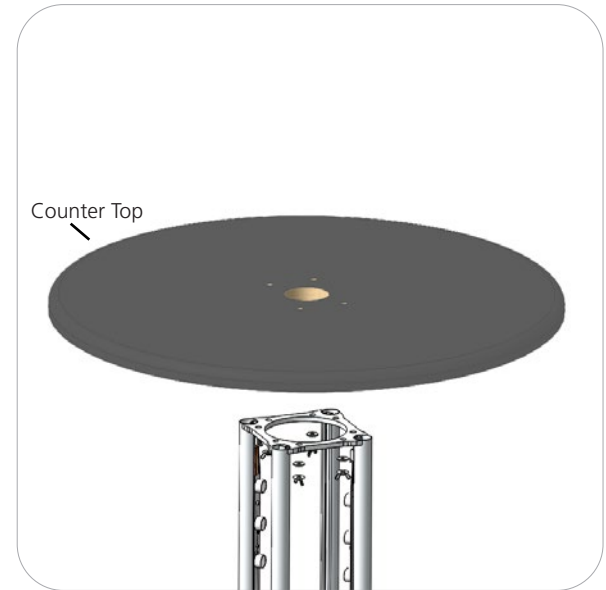

Place your base onto the floor in correct orientation. Place your Quad Truss onto the base so that the four holes in the truss line up with the holes on the base. Use (4) SET SCRW 5/16x18x2 and (4) 5/16-18 FLANGE WINGNUTS to lock the truss into place.

Step 2.

Locate your counter top. Align your counter top so that the four holes on the bottom line up with the holes on the quad truss.

*Note: the counter top should not be fastened to the truss yet.

Step 3.

Thread your usb cable(s) through the center of the counter top. Set your usb cables individually through each groove of the USB Cap. Align the cap so that all four screw holes match with the counter top holes and truss beneath.

*Note: the counter top should not be fastened to the truss yet.

Step 4.

Gather your second Quad Truss, (4) 5/16x18x2, (4) washers, and (4) 5/16-18 Flange Wing nuts. Align your Quad Truss so that the holes match the components below it. Place your bolts and washers through the top, tighten the Wing Nuts from the bottom.

Kit Assembly

Step by Step

Step 5.

Locate your FMLT-CHRG-01-SOFFIT counter ceiling. Align the holes in the soffit so that they match with the holes in the Quad Truss. Gather (4) SET SCRW 5/16x18x2 and (4) 5/16-18 FLANGE WINGNUTS to lock the truss into place.

Step 6.

Assemble your LED-DB-PWRSUPLY by connecting it to the power cord. Thread the cable down the center holes of your counter assembly so that the power cable and power supply box are left on the top of the FMLT-CHRG-01-SOFFIT. Place your power strip on top of the FMLT-CHRG-01-SOFFIT also and thread any extension cords down the holes as well. Locate your USB Hub and connect it to your power strip. Connect all four usb cables to the four usb hubs to power them.

Step 7.

Use your LED-DB-CL-300s to link your LEDs by connecting male to female.

Step 8.

You will need your LED-DB-CL-DCJ-600 to connect your LEDs to the power supply. Route the cable through the hole in the base. Test that all LEDs illuminate.

Kit Assembly

Step by Step

Step 9.

Now assemble your fabric structure. Locate three CHR-01-FS-T1 and both CHR-01-FS-T2 tubes. Snap the T1 tubes onto the T2 so that the curved side faces toward the inside of the structure.

Step 10.

Cover your tube structure from bottom to top and zip to enclose.

Step 11.

Place your fabric structure on top of the SOFFIT to hide the wiring.

Step 12.

Locate your CHR-01-G graphics. wrap your Quad Truss and zip. Rotate the graphics so that the zippers are uniform to one corner of the truss. Setup is complete.
