This product may include the following materials for recycle:
 aluminum, select wood, fabric, cardboard, paper, steel, and plastics.

We are continually improving and modifying our product range and reserve the right to vary the specifications without prior notice. All dimensions and weights quoted are approximate and we accept no responsibility for variance. E&OE. See Graphic Templates for graphic bleed specifications.

For this step you will need:

Assemble rectangular frame by connecting tubes with push button fit as labeled to the right.

For this step you will need:

Install the graphic by inserting the bottom of the frame into the pillowcase graphic and pulling up. Make sure to have the graphic cut outs around the protruding posts at the top of the ladder.

Zip the graphic closed at the top of the frame.

For this step you will need:

Connect the remaining tubes with push button fit as labeled below using the same method from Step 1.

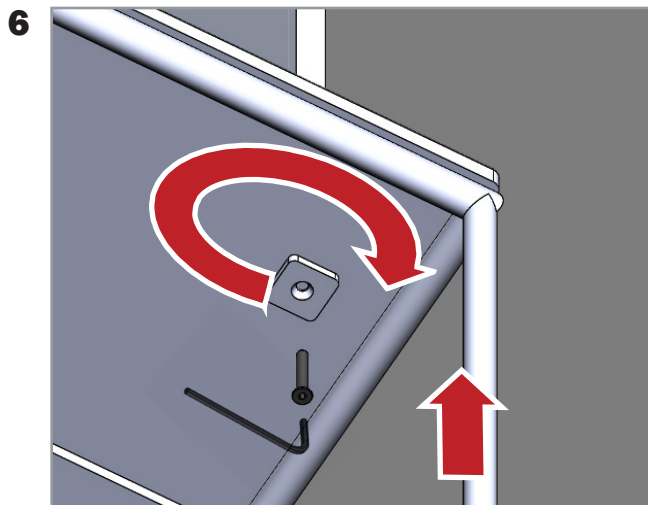

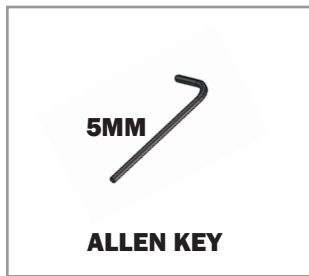

For this step you will need:

Using the allen key attach the monitor mount to the ladder. Standard height is 80 inches from the base of the counter.

For this step you will need:

Using the allen key attach the ladder to the counter using the provided screw.

For this step you will need:

Using the allen key attach the ladder to the backing frame.

*** Backwall frame not included**

Modulate Magnetic Counter

MOD-CNTR-M-B
 MOD-CNTR-M-DW
 MOD-CNTR-M-W
 MOD-CNTR-M-S

The Modulate™ Magnetic Counter accents the Modulate line of mix and match banners and reconfigurable exhibit kits. Couple Modulate banners with the Modulate Counter to create kiosks and workstations for use in tradeshow exhibits, at events and in more permanent settings. The Modulate Magnetic Counter comes with a magnetic, snap-button tube frame, an internal shelf, a printed stretch fabric graphic and a portable carry bag. The graphic spans the perimeter of the frame and attaches with hook and loop, making it easy to get inside the counter for what you need.

features and benefits:

- Portable display counter
- Magnetized, aluminum tube frame
- Top available in four thermoform finish options
- Quick to set-up
- Stretch fabric graphics attach with hook and loop velcro
- Includes internal shelf
- Carry bag included
- Easy to store and ship
- One year hardware warranty against manufacturer defects

Kit Assembly

Step by Step

Step 1.

Gather the components to build the frame. Use the Exploded View for part labels.

Reference Connection Method(s) 1 for more details.

Step 2.

Rest the internal shelf on the pre-installed pin located on all 4 vertical 30mm tubes.

Step 3.

Place the countertop on the frame. Use the Exploded View for part labels.

Reference Connection Method 2 for more details.

CT-BLOCKS ARE FOUND UNDER THE COUNTER.

Step 4.

the Graphic is attached to the counter with hook & loop fasteners. The hook fastener is on the top and bottom outside tubes. Start in one corner and wrap the graphic around the frame. Once you have returned to the starting point, adjust as needed then zipper the graphic closed.

BACK VIEW

Connection Methods

Connection Method 1: PUSH TAB CONNECTION

The top and bottom come pre-assembled. the top tubes are riveted to the connector. The SIDE SUPPORT tubes will snap into place shown in the picture above using a push tab lock. The SIDE SUPPORTS lock the top and bottom frames together.

Connection Method 2: CT-BLOCKS/ COUNTER TOP

Plastic CT-BLOCK will come attached to the bottom of the Counter top. This helps the Counter to not slide around on the tubes. Any cutting of the tubes or screws would weaken the strength of the tubes. So, CT-BLOCKS are used.

Counter Top - Electronic Device Instructions

Warning:
Keep electronic devices within the safe zone. 2" from the outer frame is the recommended distance. The magnet could cause interruptions with electronics.
